## WHY YOU ARE NERVOUS

The nervous system is the alarm system of the human body.

In perfect health we hardly realize that we have a network of nerves, but when health is ebbing, when strength is declining, the same nervous system gives the alarm in headaches, tiredness, dreamful sleep, irritability and unless corrected, leads straight to a breakdown.

To correct nervousness, Scott's Emulsion is exactly what you should take; its rich nutriment gets into the blood and rich blood feeds the tiny nerve-cells while the whole system responds to its refreshing tonic force. It is free from alcohol. Scott & Bowne, Bloomfield, N. J.

## The Land of By-and-By

There is a land as I've heard tell, where nothing's ever done; they procrastinate therein do dwell, no works have yet begun. "Tomorrow" is the watchword there, and "pretty soon" the cry—the name of this unpleasant land?—the land of By-and-By.

Procrastination there is king, he rules with a harsh hand, but makes no laws or anything to benefit the land. The lessons they are never learned—no use to question why; the chores are left unfinished in the land of By-and-By.

And if YOU put things off and say you'll do them pretty soon, and shirk your tasks from day to day, perhaps some afternoon, they'll take YOU off to this bad land—no friend will heed your cry—and there is no Tomorrow in the land of By-and-By.
